

The Life Sciences industry presents brokers and insurance carriers with catastrophic risk issues to solve. These risks begin with the blood, sweat and tears of the research and development of a novel compound or medical device in the clinical trial approval process. Risks tend to increase through the commercialization of a blockbuster product and the enterprise of sustaining the success of that compound or medical device in the marketplace.

ABOUT RT SPECIALTY'S NATIONAL LIFE SCIENCES PRACTICE

The RT Specialty National Life Sciences Practice is prepared to collaborate with our retail brokers to offer access to strategic and customized insurance solutions for all aspects of risk that your Life Sciences clients present. RT Specialty has exclusive and proprietary Life Sciences risk solutions for Vitamin, Mineral and Supplement companies, as well as the expertise and ability to customize state-of-the-art insurance solutions for the most difficult, complex or vexing Medical Device, Biosimilars / Biologic and Pharmaceutical Manufacturer or Distributor risk issues.

HOW RT LIFE SCIENCE WORKS FOR YOU

RT Life Science will work with you on the construction of risk solutions for the most demanding and pressing needs of your Life Sciences clients. We have unique business relationships and expertise on Life Sciences carrier policy contracts and their coverage. RT Life Sciences offers access to major Life Sciences carriers for comprehensive risk solutions for your clients. RT Life Sciences will validate your confidence in us with premier service to you and your clients.

Please pick up the phone or email us to utilize the RT Specialty National Life Sciences Practice and our wealth of expertise, exclusive and proprietary insurance solutions, and our cornucopia of markets for your Life Sciences clients. RT Specialty's National Life Sciences Practice has the knack for understanding the art of your Life Sciences client risks. Together, let's construct, discuss, and bind an insurance masterpiece for your Life Sciences clients.
